

DATA SHEET n° 31 19 001

Revision : 01 Of: January 2011

Technical features :

Product EMI + IP GASKETS

RoHS conform

Material

Core EPDM (standard)

Cladding Nickel Copper Woven Nylon Ripstop (NC)

Conductive fabric half cover version

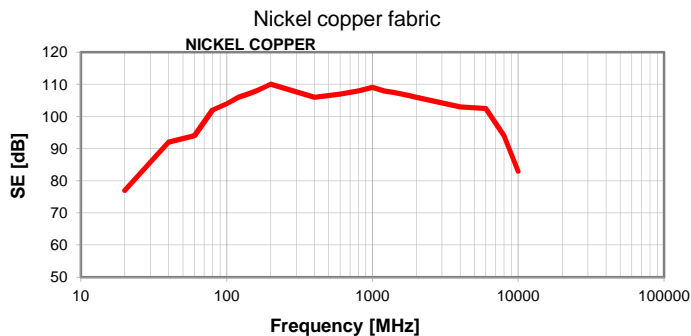

Metal wire mesh full cover version

Surface Resistivity

Nickel Copper < 0,1 Ohm / □

Shielding Effectiveness

Shielding performance in according to **MIL-G-83528**
Values are indication only and a specific test is always suggested

Service Temperature

-40 °C to 110 °C

Sections

According to catalogue or special request

Application

Clip-on - easy to install

Tolerances

According to standard or specific gasket drawing
